MODULE 6.5

PERSONAL POWER DECLARATION

“To get the maximum from life, have contribution as the source of your focus and direction. Then be absolutely committed to the achievement of one specific written intention . . . your Personal Power Declaration.”

JAMES LEE VALENTINE

My *Personal Power Declaration* is an empowering statement that encapsulates all that I desire to achieve in my one ultimate *Lifetime Power Goal*. It is the mission statement for my life’s journey to success and, when reviewed frequently, sets the focused direction for my actions. Fundamentally, this declaration represents the new highly empowered me on my voyage to be an Empowered Millionaire. As Leo Rosten so eloquently acknowledged: “Happiness comes only when we push our brains and hearts to the farthest reaches of what we are capable. The purpose of life is to matter, to count, to stand for something, to have it make some difference that we lived at all.”

Within all Empowered Millionaires is a spark of genius. For me, all that is needed to turn this tiny flame into an inferno of inspired action-steps is a strong and unconquerable desire to succeed at the one thing I absolutely want to do. I must discover my life’s ultimate purpose — my magnificent obsession — and passionately express it through my *Personal Power Declaration*. Then, with this statement guiding my action-plans and action-steps, I can produce outstanding results that positively impact the world in which we live. My life will make an extraordinary difference when my every action-plan and action-step is directly aligned with my chief aim in life.

It’s Day 78 . . . I’m empowered for life!

What Lights My Motivational Fire?

To begin thinking like a success, all I have to do is be still long enough to determine one basic fact about myself: What ignites my passion for achievement?

I should ask myself this question for clarification:

Q *What purpose in this world, above all others, lights my motivational fire and keeps it burning bright?*

In other words, what dominant mission motivates me toward being the best I can be at one particular thing? What is the singular purpose — even ‘crusade’ if it is compelling enough — that I was born for? I need to keep searching for the key inside my heart until I unlock the door to my life’s ultimate purpose.

For this, I need to think — I must become clear on what is the single distinct fire-lighter within me. Then I must write it precisely. This becomes my magnificent obsession or my one ultimate *Lifetime Power Goal* that will form the foundation for my *Personal Power Declaration*. Once I have isolated the mental spur that can kick me into action, I have discovered the propellant that can boost me into the orbit of outstanding personal empowerment.

Contribution: The Fire-Power That Builds Success

Contribution is the number one factor that leads to success. Nothing gives us a greater sense of well-being and personal satisfaction than contributing to society or our fellow human beings. Giving unselfishly is the route to a satisfying, fulfilled life.

As Kahlil Gibran wrote: “You give but little when you give of your possessions. It is when you give of yourself that you truly give.” The real purpose of life is to help other people to live happier, healthier, more successful lives. Contribution is a major part of this

and is all about giving — with the principle behind it being: *The more I give the more I get*. Charitable actions are all about reaching down with a helping hand to those who cannot reach up to us. The reason some people get so much out of life is because they merely take advantage of the unlimited opportunities to contribute to others. It is said that the person who teaches others is the one who learns the most — but it is equally true that the person who gives the most is the one who usually earns the most too. In other words, when an individual strives to make a dramatic difference in the life of someone else, an even greater difference is made in his or her own life.

Quoting Kahlil Gibran again: “There are those who give little of the much which they have. They give it for recognition and their hidden desire makes their gifts unwholesome. And there are those who have little and give it all. These are the believers in life and the bounty of life, and their coffer is never empty.” Aligned with his wise words is the fundamental principle of contribution that will have a tremendous impact on the value I place on my own success, as judged by the sum total of my charitable actions. Because it is how much is *given* during my lifetime that will determine how much satisfaction, gratification and personal reward I continually *get* from it.

I must ask myself the following question to ensure that my focus and direction in life come from the contribution mode:

Q *How does my one ultimate Lifetime Power Goal contribute to the betterment of society, the improvement of the environment, do good for those around me or personally develop and improve the lives of people in general?*

Right now, it is time for me to create my own magnificent obsession based around giving to life, not taking from it. I must plan my own vision of what it will take for me to achieve a future that is both rewarding and fulfilling whilst still coming from the contribution mode. This is a future in which I make a significant and lasting contribution to the world and vastly improve the quality of my life

It's Day 78 . . . I'm empowered for life!

and the lives of other people in the process. This is a future in which I provide a rich, healthy environment for myself and others, and literally make mine and their aspirations all come true.

Concentrate My Power For Amazing Success

Concentration of personal power is the definitive empowerment resource for successful achievement that I can instantly command when I focus all of my efforts on mastering *one* area of my life. Controlled focus is like a laser beam, which I can use to cut through any obstacles that may be stopping me from realizing my greatest objectives. I must learn to harness the power of this vital principle and concentrate my energies on achieving my major purpose in life.

Am I now committed to discovering my life's definitive mission? Do I want to attain the vast array of success and personal fulfillment that I know can be mine? Many people never know what their chief aim in life is. The main reason is that they lack the stimulus that this concentration of personal power will provide.

This is my best chance to release my mental shackles and dream at the highest level. This is my best chance to brainstorm a purpose that will direct me toward amazing success — to find a mission grand enough to challenge me to break through my limitations and discover my true potential. This is my best chance to find the one ultimate *Lifetime Power Goal* that truly lights my motivational fire, and align my actions for maximum possibility of its accomplishment.

My Personal Power Declaration

I must study my list of *Lifetime Power Goals* and focus my thoughts on the one major objective above all others that is to become the heart of my magnificent obsession. I shall follow this seven-step formula to awaken my ambitions, set my creative juices flowing, and design for myself a powerful *Personal Power Declaration* to carry me on to amazing success during my lifetime:

It's Day 78 . . . I'm empowered for life!

MODULE 6.5 PERSONAL POWER DECLARATION

1. Write my one ultimate *Lifetime Power Goal* as a precise sentence on a fresh sheet of paper.
2. Ask myself: *Is this truly what I desire as my life's mission above and beyond all else?* If the answer is no, refer to *The Empowered Millionaire: Volume One* and begin reading from the first page.
3. Ask myself: *Does the focus and direction of my Lifetime Power Goal come from contribution and will it positively impact the lives of others?* If not, go back to point 1 above and rework the purpose of my goal. Build on it from new angles until I see benefits for others in it and I can truthfully say that it comes from contribution.
4. Now, write my *Lifetime Power Goal* again on another fresh sheet of paper. This time increase it to two or three paragraphs until it embodies all the qualities and attributes that will, from this moment forward, drive me on to absolute success.
5. This is now my *Personal Power Declaration*. I must personalize it by adding my name. Then I shall take this list and place it in a prominent position from where I will be able to review it daily.
6. I shall commit to reading my *Personal Power Declaration* at least once a day, out loud if possible, with a high level of emotional intensity in my voice and with enthusiasm in my heart.
7. I shall cultivate the winning discipline of daily growth and long-range achievement in my life by taking some action *today*, no matter how little, toward the attainment of my *Personal Power Declaration*. This winning discipline of daily action is the seed from which my success and great fortune will grow.

On the following page is an inspiring illustration of a *Personal Power Declaration*. I shall use this example — of the author, James Lee Valentine — to design my own empowering declaration that can boost me on my voyage to be an Empowered Millionaire.
